Prot. DC2020OC187   Milan, 15/06/2020

Att. To all accredited Certification Bodies for the FSM scheme
Scheme managers

To Associations of conformity assessment bodies

Re: ACCREDIA - Informative Circular DC N° 13/2020
Dispositions for updating of the scope of the accreditation certificate for FSMS accredited Certification Bodies and requests for information for Certification Bodies providing certification against the FSSC 22000 scheme

In accordance with the request received from the Scheme Owner in the FSSC 22000, we inform you that ACCREDIA is going to update the scope of the accreditation certificates issued to the **FSSC 22000 version 5** accredited Certification Bodies.
The certificate will specify, as well as the category, also the cluster and subcategory which are the object of the certifications issued by the CABs.

Only the indication of the Cluster, referring to the specific category for which the Certification Body is already accredited, will be included also in the scope of the accreditation certificates issued against the **ISO 22000** and **FAMI QS** schemes.

In order to issue all the updated accreditation certificates on the occasion of the next due Accreditation Committee (CSA AG), all the FSSC 22000 Accredited Certification Bodies have to complete and send to ACCREDIA, by June 22, 2020, the following table contained in Annex 1, with the following information: the number of qualified auditors and number of certificates issued for each subcategory of the FSSC 22000 scheme for which the CAB is accredited.

The accreditation will be issued in those subcategories in which the Certification Body possesses qualified auditors.

All the information declared in the following table will be verified during the first due surveillance/renewal assessment.

Please contact us for any clarification and information you may need.

Best regards
